Dear Harold;

Thanks for your last two letters and enclosures. I am sorry to read about your disappointment with Jack Anderson. Again, I have a feeling he is not his own person. I guess I am suspicous of everyone. Well, almost.

I have an execycle but no way could I pedal it 11 miles non stop. I hope the chest pains are nothing serious.

It looks like I might have a job on a two hour show that Q.M. is going to make.; we are supposed to hear today if we will get the go ahead. It's about an ex-cop psycologist looking for runaways.

It sounds like you are going to have a rough winter. It's nice to have a friend like Lyda's husband help with the fire wood.

Also thanks for the article on D. Begelman of Columbia it had a little more coverage than out here.

My best to Lil and Jim.

Best always,

Paul
